

I have enjoyed the music ministry of K-LOVE for just over six months. Our community has desperately needed a radio station providing an encouraging message and music for almost twenty years. Replacing K-LOVE by an LPFM broadcaster will provide us with another "cookie cutter" station providing our community with no real benefit. In the day of continual bad news, hard rock, and vulgar or negative talk shows K-LOVE provides an uplifting and a truly entertaining alternative. Please do not establish a policy that promotes LPFM station as a priority over FM translator service.
